

Access Dental Care

Multiple locations throughout North Carolina

Program Overview

Access Dental Care, established in 2000, is based in Asheboro, North Carolina. Services include screenings, cleanings, fluoride treatments, sealants, x-rays, fillings, extractions, crowns, bridges, dentures, scaling, root canals, and provider education on mouth assessments and daily oral care. The program treats frail older adults and individuals with intellectual and developmental disabilities, providing on-site care at long-term care facilities. As of 2013, the program has treated nearly 13,000 individuals and maintains 57 active facilities.
