

## Bridges to Health San Francisco, California

### Program Overview

---

In 2014, Bridges to Health was a three-day event in San Francisco, California that provided medical and dental care to almost 3,000 individuals. This program had a medical and dental clinic, and offered a variety of services including vision services and STD/HIV screening. Dental services included cleanings, extractions, crowns, and root canals. The majority of the dental equipment was made available by the Adventist Medical Evangelism Network. By the end of the three days, more than \$5 million worth of services were provided at no charge to the clients.
