

Colorado Dental Health Care Program for Low-Income Seniors Multiple locations throughout Colorado

Program Overview

The Colorado Dental Health Care Program for Low-Income Seniors (Senior Dental Grant Program) was created with the passage of Senate Bill 14-180 and began accepting individuals on July 1, 2015. This program grants funds to Area Agencies on Aging, community-based organizations and foundations, health districts, safety-net clinics, and private dental practices to promote the health and welfare of Colorado's low-income older adults. These qualified grantees provide or arrange for the provision of dental care services to individuals 60 years and older who do not have private dental insurance and are not eligible for services under any other dental health care program lawfully present in the state (such as Medicaid or the Old Age Pension Health and Medical Care Program).
