

Dakota Smiles Mobile Dental Program

Multiple locations throughout South Dakota

Program Overview

The Delta Dental Dakota Smiles Mobile Dental Program, established in 2004, has provided dental care to over 22,000 children across South Dakota. The team concentrates on preventive dental care in children, rather than treating issues when they manifest into larger problems. Services include fillings, extractions, and patient education. The program, which started as a partnership between the Department of Health and the Ronald McDonald House Charities, focuses on addressing the needs of underserved individuals under age 21 who lack a dental home.
