The Senior Resource Alliance, established in 1985 and located in Orlando, Florida, is the Area Agency on Aging (AAA) of Central Florida, Inc. It operated the Mobile Medical Clinic and Dental Screening and Referral Program for Seniors in Central Florida for about eight years. Mobile services in community settings included screenings, care coordination, and referrals for follow-up care across Orange, Osceola, Seminole, and Brevard Counties. Partner programs and practices provided more extensive dental care at a subsidized cost. The center targeted underserved older adults.
