

Tioga Mobile Dental Services Tioga County, New York

Program Overview

Tioga Mobile Dental Services, launched in 2003, operates in Tioga County, New York. The program was featured in the National Association of County and City Health Officials (NACCHO) Model Practice Database. The goal of the program is to provide an easy-to-access dental home for the entire county. It is funded through insurance revenue, grants, and community donations. The program targets underserved children and adults who lack access to a dental provider. The mobile unit consists of a large tractor-trailer that travels to Tioga County's schools during the school year and is located at a senior center for the summer months. Services include screenings, cleanings, fluoride treatments, x-rays, extractions, and fillings. All Tioga County residents are eligible for these services. Commercial dental insurance is accepted and there is a sliding fee scale available for those without dental coverage.
