

Tooth Mobile

Multiple locations throughout California

Program Overview

Tooth Mobile, established in 1999, is a mobile dental program that offers services throughout California. The program currently has three mobile dental units and is designing two additional units. These units travel across the state and are staffed by dental workers who speak English, Spanish, Cantonese, Tagalog, Vietnamese, French, and Russian, thus providing inclusive dental healthcare for all. Services include screenings, sealants, x-rays, fillings, extractions, crowns, bridges, dentures, root canals, and oral surgery. The program also targets low-income children without insurance, teaching them proper brushing techniques and providing overall dental hygiene education. Tooth Mobile works with Denti-Cal and Healthy Families to provide affordable dental care for low-income Californians.
